**Penn Millers Announces Second Quarter 2010 Catastrophe Losses**

Wilkes-Barre, Pennsylvania, (Business Wire) July 7, 2010 — Penn Millers Holding Corporation (NasdaqGM: PMIC), (“the Company”) today announced that it estimates that it incurred pre-tax catastrophe losses, net of reinsurance, of approximately \$4.9 million for the second quarter ending June 30, 2010. The majority of the losses arose from four claims in the Company’s Agribusiness segment. These four losses arose from severe weather events that included tornadoes in Arkansas, Minnesota and Kansas; and a windstorm in Illinois.

Douglas A. Gaudet, the Company’s President and Chief Executive Officer noted that “These violent storms hit a small number of our large Agribusiness customers spread throughout the Midwest. Our Claims staff has been working vigorously to help our policyholders get back to business quickly and to minimize any interruption in their operations. We are confident that we will deliver the high level of service that they and our brokers expect from us.”

“We continue to market, price and reinsure our products in our Agribusiness and Commercial Business segments under a philosophy of underwriting discipline designed to protect us from losses we cannot absorb over the long-term, however, catastrophe and weather loss ratios will vary significantly quarter to quarter due to the volatility of the frequency and the severity of such losses, relative to the small size of our company. We typically experience the highest level of weather-related loss activity in the second quarter of the year. Over the last five years, our loss ratio from catastrophes in the second quarter has averaged about 8 points. The catastrophe losses in this quarter are estimated to add about 29 loss ratio points for the quarter and will cause the Company to incur a loss from operations for the second quarter.”

The Company expects to file its second quarter Form 10-Q with the Securities and Exchange Commission on, or before, August 17, 2010.

In this press release the Company and its management discuss and make statements based on currently available information regarding their intentions, beliefs, current expectations and projections regarding the Company’s operations and performance.
